

Sauce & Spoon Strategic Objectives & Key Results (OKR) Framework

Prepared By: Sebastian Mauldin
Role: Project Manager

Organizational Mission

Sauce & Spoon exists to provide fresh, high-quality meals while supporting local communities, creating exceptional customer experiences, and maintaining sustainable business growth.

Objective 1

Deliver an Exceptional Customer Experience

Provide a fast, enjoyable dining experience that encourages customer loyalty and positive brand perception.

Key Results

- Serve customer meals within 60 minutes of arrival.
- Maintain an average customer satisfaction rating of 4.5/5 stars or higher.

- Reduce customer complaints related to service delays by 20%.
- Improve customer retention through operational efficiency initiatives.

Objective 2

Foster Continuous Innovation

Leverage technology and employee feedback to improve customer experience and operational effectiveness.

Key Results

- Complete at least one customer-facing innovation initiative annually.
- Conduct quarterly employee feedback and innovation workshops.
- Implement at least two employee-generated improvement recommendations per year.
- Measure and report innovation project outcomes.

Objective 3

Maintain Operational Excellence and Profitability

Support sustainable growth through efficient operations and responsible investment decisions.

Key Results

- Maintain operating expenses below 65% of revenue.
- Maintain profit margins above 8%.
- Complete ROI analysis for all investments exceeding \$100,000.
- Achieve positive business outcomes from major operational improvement projects.

Objective 4

Strengthen Community Partnerships

Support local economic growth through strategic sourcing and sustainable vendor relationships.

Key Results

- Source products and services from vendors within a 250-mile radius whenever feasible.
- Establish partnerships with at least five new local vendors annually.

- Maintain vendor performance reviews and sustainability evaluations.
- Increase local sourcing opportunities year-over-year.

Alignment to Menu Tablet Initiative

The Digital Menu Tablet Initiative directly supports the following organizational objectives:

- Improve customer satisfaction and dining experience.
- Increase operational efficiency.
- Support innovation and digital transformation.
- Improve profitability through upselling and process optimization.
- Generate business intelligence for future decision-making.
